

Commodity Credit Corporation, USDA

Pt. 1491

refund required by § 1488.15 and § 1488.18, together with interest thereon at the rate specified in the documents evidencing the account receivable, as well as for any liquidated damages provided for in § 1488.11. The liability of the bank and the importer under their respective obligations shall be several.

MISCELLANEOUS PROVISIONS

§ 1488.17 Assignment.

The exporter shall not assign any claim or rights or any amounts payable under the financing agreement, in whole or in part, without written approval of the Vice President, CCC, or the Controller, CCC.

§ 1488.18 Covenant against contingent fees.

The exporter warrants that no person or selling agency has been employed or retained to solicit or secure the financing agreement on an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona fide employees or bona fide established commercial or selling agencies maintained by the exporter for the purpose of securing business. For breach or violation of this warranty, CCC shall have the right, without limitation on any other rights it may have, to annul the financing agreement without liability to CCC. Should the financing agreement be annulled, CCC will promptly consent to the reduction or cancellation or related bank obligations except for amounts outstanding under a financing agreement. Such amounts shall, on demand, be refunded to CCC by the exporter.

§ 1488.19 [Reserved]

§ 1488.20 Officials not to benefit.

No member of or delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of the financing agreement or to any benefit that may arise therefrom, but this provision shall not be construed to extend to the financing agreement if made with a corporation for its general benefit.

§ 1488.21 Exporter's records and accounts.

CCC shall have access to and the right to examine any directly pertinent books, documents, papers and records of the exporter involving transactions related to the financed export credit sale until the expiration of three years after the end of the financing period.

§ 1488.22 Communications.

(a) Unless otherwise provided, written requests, notifications, or communications by the applicant pertaining to the financing agreement shall be addressed to the Assistant Sales Manager, Commercial Export Programs, Office of the General Sales Manager, U.S. Department of Agriculture, Washington, DC 20250.

(b) [Reserved]

§ 1488.23 OMB Control Numbers assigned pursuant to the Paperwork Reduction Act.

The information collection requirements contained in these regulations (7 CFR part 1488) have been approved by the Office of Management and Budget (OMB) in accordance with the provisions of 44 U.S.C. Chapter 35 and have been assigned OMB Control Number 0551-0021.

[Amdt. 8, 50 FR 13967, Apr. 9, 1985]

AUTHORITY: 16 U.S.C. 3838h–3838i.

SOURCE: 68 FR 26474, May 16, 2003, unless otherwise noted.

Subpart A—General Provisions

§ 1491.1 Applicability.

(a) The regulations in this part set forth policies, procedures, and requirements for program implementation of the Farm and Ranch Lands Protection Program as administered by the Natural Resources Conservation Service (NRCS). FRPP cooperative agreements and easements signed on or after May 16, 2003, will be administered according to 7 CFR part 1491.

(b) The NRCS Chief may implement FRPP in any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, and the Commonwealth of the Northern Mariana Islands.

§ 1491.2 Administration.

(a) The regulations in this part will be administered under the general supervision and direction of the NRCS Chief.

(b) NRCS shall— (1) Provide overall program management and implementation leadership for FRPP;

(2) Develop, maintain, and ensure that policies, guidelines, and procedures are carried out to meet program goals and objectives;

(3) Ensure that the FRPP share of the cost of an easement or other deed restrictions in eligible land shall not exceed 50 percent of the appraised fair market value of the conservation easement;

(4) Determine land and entity eligibility;

(5) Ensure a conservation plan is developed in accordance with 7 CFR part 12;

(6) Make funding decisions and determine allocations of program funds;

(7) Coordinate with the Office of the General Counsel (OGC) to ensure the legal sufficiency of the cooperative agreement and the easement deed or other legal instrument;

7 CFR Ch. XIV (1–1–05 Edition)

(8) Sign and monitor cooperative agreements for the CCC with the selected entity;

(9) Monitor and ensure conservation plan compliance with highly erodible land and wetland provisions in accordance with 7 CFR part 12; and

(10) Provide leadership for establishing, implementing, and overseeing administrative processes for easements, easement payments, and administrative and financial performance reporting.

(c) NRCS may enter into cooperative agreements with eligible entities to assist NRCS with implementation of this part.

§ 1491.3 Definitions.

The following definitions may be applicable to this part:

Agricultural uses are defined by the State's Purchase of Development Rights (PDR) program, or where no PDR program exists, agricultural uses should be defined by the State agricultural use assessment program. (If the Agency finds that a State definition of agriculture is so broad that an included use could lead to the degradation of soils, NRCS reserves the right to impose greater deed restrictions on the property than allowable under that State definition of agriculture in order to protect topsoil.)

Chief means the Chief of NRCS, USDA.

Commodity Credit Corporation (CCC) is a Government-owned and operated entity that was created to stabilize, support, and protect farm income and prices. CCC is managed by a Board of Directors, subject to the general supervision and direction of the Secretary of Agriculture, who is an ex-officio director and chairperson of the Board. CCC provides the funding for FRPP, and NRCS administers FRPP on its behalf.

Conservation Easement means a voluntary, legally recorded restriction, in the form of a deed, on the use of property, in order to protect resources such as agricultural lands, historic structures, open space, and wildlife habitat.

Conservation Plan is the document that—

(1) Applies to highly erodible cropland;

(2) Describes the conservation system applicable to the highly erodible cropland and describes the decisions of the person with respect to location, land use, tillage systems, and conservation treatment measures and schedules;

(3) Is approved by the local soil conservation district in consultation with the local committees established under Section 8(b)(5) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 5909h(b)(5)) and the Secretary, or by the Secretary.

Contingent right is an interest in land held by the United States, which the United States may exercise under specific circumstances in order to enforce the terms of the conservation easement or hold title to the easement.

Eligible entities means Federally recognized Indian Tribes, States, units of local government, and certain non-governmental organizations, which have a farmland protection program that purchases agricultural conservation easements for the purpose of protecting topsoil by limiting conversion to non-agricultural uses of the land.

Additionally, to be eligible for FRPP, the entity must have pending offers, for acquiring conservation easements for the purpose of protecting agricultural land from conversion to non-agricultural uses.

Eligible land is privately owned land on a farm or ranch that has prime, unique, Statewide, or locally important soil, or contains historical or archaeological resources, and is subject to a pending offer by an eligible entity. Eligible land includes cropland, rangeland, grassland, and pasture land, as well as forest land that is an incidental part of an agricultural operation. Other incidental land that would not otherwise be eligible, but when considered as part of a pending offer, may be considered eligible, if inclusion of such land would significantly augment protection of the associated farm or ranch land.

Fair market value is ascertained through standard real property appraisal methods. Fair market value is the amount in cash, for which in all probability the property would have sold on the effective date of the appraisal, after a reasonable exposure of time on the open competitive market,

from a willing and reasonably knowledgeable seller to a willing and reasonably knowledgeable buyer. Neither the seller nor the buyer act under any compulsion to buy or sell, giving due consideration to all available economic uses of the property at the time of the appraisal. In valuing conservation easements, the appraiser estimates both the fair market value of the whole property before the easement acquisition and the fair market value of the remainder property after the conservation easement has been imposed. The difference between these two values is deemed the value of the conservation easement.

Farm or Ranch Succession Plan is a general plan to address the continuation of some type of agricultural business on the conserved land; the farm or ranch succession plan may include specific intra-family succession agreements or strategies to address business asset transfer planning to create opportunities for beginning farmers and ranchers.

Field Office Technical Guide (FOTG) is the official document for NRCS guidelines, criteria, and standards for planning and applying conservation treatments and conservation management systems. The FOTG contains detailed information on the conservation of soil, water, air, plant, and animal resources applicable to the local area for which it is prepared.

Historical and archaeological resources must be:

(1) Listed in the National Register of Historic Places (established under the National Historic Preservation Act (NHPA), 16 U.S.C. 470, *et seq.*), or

(2) Formally determined eligible for listing in the National Register of Historic Places (by the State Historic Preservation Officer (SHPO) or Tribal Historic Preservation Officer (THPO) and the Keeper of the National Register in accordance with section 106 of the NHPA), or

(3) Formally listed in the State or Tribal Register of Historic Places of the SHPO (designated under section 101(b)(1)(B) of the NHPA) or the THPO (designated under section 101(d)(1)(C) of the NHPA).

Land Evaluation and Site Assessment System (LESA) is the land evaluation

system approved by the NRCS State Conservationist used to rank land for farm and ranch land protection purposes, based on soil potential for agriculture, as well as social and economic factors, such as location, access to markets, and adjacent land use. (For additional information see the Farm-land Protection Policy Act rule at 7 CFR part 658.)

Landowner means a person, persons, estate, corporation, or other business or nonprofit entity having fee title ownership of farm or ranch land.

Natural Resources Conservation Service is an agency of the U.S. Department of Agriculture.

Non-governmental organization is defined as any organization that:

- (1) Is organized for, and at all times since the formation of the organization, has been operated principally for one or more of the conservation purposes specified in clause (i), (ii), (iii), or (iv) of section 170(h)(4)(A) of the Internal Revenue Code of 1986;
- (2) Is an organization described in section 501(c)(3) of that Code that is exempt from taxation under 501(a) of that Code;
- (3) Is described in section 509(a)(2) of that Code; or
- (4) Is described in section 509(a)(3) of that Code and is controlled by an organization described in section 509(a)(2) of that Code.

Other interests in land include any right in real property recognized by State law, including fee title. FRPP funds will only be used to purchase other interests in land with prior approval from the Chief.

Other productive soils are soils that are contained on farm or ranch land that is identified as farmland of State-wide or local importance and is used for the production of food, feed, fiber, forage, or oilseed crops. The appropriate State or local government agency determines Statewide or locally important farmland with concurrence from the State Conservationist. Generally, these farmlands produce high yields of crops when treated and managed according to acceptable farming methods. In some States and localities, farmlands of Statewide and local importance may include tracts of land that have been designated for agri-

culture by State law or local ordinance. 7 CFR part 657 sets forth the process for designating soils as State-wide or locally important.

Pending offer is a written bid, contract, or option extended to a landowner by an eligible entity to acquire a conservation easement before the legal title to these rights has been conveyed for the purpose of limiting non-agricultural uses of the land.

Prime and unique farmland are defined separately, as follows:

(1) Prime farmland is land that has the best combination of physical and chemical characteristics for producing food, feed, fiber, forage, oilseed, and other agricultural crops with minimum inputs of fuel, fertilizer, pesticides, and labor, without intolerable soil erosion, as determined by the Secretary.

(2) Unique farmland is land other than prime farmland that is used for the production of specific high-value food and fiber crops, as determined by the Secretary. It has the special combination of soil quality, location, growing season, and moisture supply needed to economically produce sustained high quality or high yields of specific crops when treated and managed according to acceptable farming methods. Examples of such crops include citrus, tree nuts, olives, cranberries, fruits, and vegetables. Additional information on the definition of prime, unique, or other productive soil can be found in 7 CFR part 657 and 7 CFR part 658.

Secretary is the Secretary of the U.S. Department of Agriculture.

State Technical Committee means a committee established by the Secretary of the U.S. Department of Agriculture in a State pursuant to 16 U.S.C. 3861 and 7 CFR part 610, subpart C.

State Conservationist means the NRCS employee authorized to direct and supervise NRCS activities in a State, the Caribbean Area (Puerto Rico and the Virgin Islands), or the Pacific Basin Area (Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands).

§ 1491.4 Program requirements.

(a) Under the FRPP, the Secretary, on behalf of CCC, shall purchase conservation easements, in partnership

with eligible entities, from landowners who voluntarily wish to protect their farm and ranch lands from conversion to nonagricultural uses. Eligible entities submit applications to NRCS State Offices to partner with NRCS to acquire conservation easements on farm and ranch land. NRCS enters into cooperative agreements with selected entities and provides funds for up to 50 percent of the appraised market value for the easement purchase. In return, the entity agrees to acquire, hold, manage, and enforce the easement. A Federal contingent right interest in the property must be included in each easement deed for the protection of the Federal investment.

(b) The term of all easements will be in perpetuity unless prohibited by State law.

(c) To be eligible to receive FRPP funding, an entity must meet the definition of "eligible entity" as listed in § 1491.3. In addition, eligible entities wishing to receive FRPP funds must also demonstrate:

(1) A commitment to long-term conservation of agricultural lands;

(2) A capability to acquire, manage, and enforce easements;

(3) Sufficient number of staff dedicated to monitoring and easement stewardship; and

(4) The availability of funds.

(d) Eligible land must meet the definition of "eligible land" as provided in § 1491.3. In addition:

(1) Entire farms or ranches may be enrolled in FRPP.

(2) Farms must contain at least 50 percent of prime, unique, Statewide, or locally important soil, unless otherwise determined by the State Conservationist, or contain historical or archaeological resources.

(3) Eligible lands are farm and ranch lands subject to a pending offer, as defined in § 1491.3, for purchase of a conservation easement.

(4) Eligible land must be privately owned. NRCS will not enroll land in FRPP that is owned in fee title by an agency of the United States or State or local government, or land that is already subject to an easement or deed restriction that limits the conversion of the land to nonagricultural use, un-

less otherwise determined by the Secretary.

(5) Eligible land must be owned by landowners who certify that they do not exceed the adjusted gross income limitation eligibility requirements set forth in Section 1604 of the Farm Security and Rural Investment Act of 2002.

(e) Prior to FRPP fund disbursement, the value of the conservation easement must be appraised. Appraisals shall be completed and signed by a State-certified or licensed general appraiser and shall contain a disclosure statement by the appraiser. The appraisal shall conform to either the Uniform Standards of Professional Appraisal Practices or the Uniform Appraisal Standards for Federal Land Acquisitions.

(f) At the discretion of the Chief, a standard easement or equivalent legal form, which meets the intent of the 2002 Act, will be required as a condition for program participation.

(g) The landowner shall be responsible for complying with the Highly Erodible Land and Wetland Conservation provisions of the Food Security Act of 1985, as amended, and 7 CFR part 12.

§ 1491.5 Application procedures.

(a) When funds are available, NRCS publishes a Request for Proposals in the FEDERAL REGISTER or, at the discretion of the Chief, uses another process to solicit applications from eligible entities to cooperate in the acquisition of conservation easements on farms and ranches. Information required in the application will be set forth in the Request for Proposals.

(b) To participate, an eligible entity submits a proposal to NRCS for the acquisition of conservation easements on eligible farm or ranch land, on which the entity already has pending offers. An entity's application contains a request to fund one or more parcels. All applications must be submitted to the appropriate NRCS State Conservationist by the specified date, as indicated in the Request for Proposals.

§ 1491.6 Ranking considerations and proposal selection.

(a) Once the NRCS State Conservationist has assessed entity eligibility

§ 1491.7

and land eligibility, the State Conservationist shall use National and State criteria to evaluate the land and rank parcels. Entities and parcels will be selected for participation based on the entities' responses to the Request for Proposals. Selection will be based on national ranking criteria set forth by the Chief in the Request for Proposals and State criteria as determined by the State Conservationist, with advice from the State Technical Committee.

(1) Examples of national criteria may include:

(i) Acreage of prime, unique, and important farm and ranch land to be protected;

(ii) Total acres of land to be protected with the requested award;

(iii) Acreage of prime, unique, and important farm and ranch land identified in the National Resources Inventory as converted to nonagricultural uses;

(iv) Total acres needing protection;

(v) Number or acreage of historical and archaeological resources to be protected on farm or ranch lands;

(vi) Anticipated average FRPP cost per acre;

(vii) Rate of land conversion (*e.g.*, local land use conversion rates);

(viii) Amount of the Federal share to be contributed to the acquisition of the conservation easement, as guaranteed by the eligible entity;

(ix) History of eligible entity's commitment to conservation planning and conservation practice implementation;

(x) History of an eligible entity's commitment to assisting beginning farmers and ranchers, to promoting opportunities in farming and ranching, and to farm and ranch succession transfer;

(xi) Eligible entity's history of acquiring, managing, holding, and enforcing conservation easements. This could include annual farmland protection expenditures, monetary donations received, accomplishments, and staffing levels;

(xii) A description of the eligible entity's farmland protection strategy and how the FRPP application submitted by the entity corresponds to the entity's strategic plan; and

7 CFR Ch. XIV (1-1-05 Edition)

(xiii) Eligible entity's estimated acres of unfunded proposed conservation easements on prime, unique, and important farm and ranch land.

(2) Examples of State or local criteria, as determined by the State Conservationist may include:

(i) Proximity of parcel to other protected clusters;

(ii) Proximity of parcel to other agricultural operations and infrastructure;

(iii) Parcel size;

(iv) Type of land use;

(v) Maximum FRPP cost expended per acre;

(vi) Amount of the Federal share to be contributed to the acquisition of the conservation easement, as guaranteed by the eligible entity;

(vii) History of an eligible entity's commitment to assisting beginning farmers and ranchers, to promoting opportunities in farming and ranching, and to farm and ranch succession transfer;

(viii) Existence of a parcel in an agriculturally zoned area.

(b) State ranking criteria will be developed on a State-by-State basis. Prior to proposal submission, interested entities should contact the State Conservationist located in their State for a full listing of applicable National and State ranking criteria.

(c) The NRCS State Conservationist may seek advice from the State Technical Committee (established pursuant to 16 U.S.C. 3861) in evaluating the merits of the applications.

§ 1491.7 Funding priorities.

(a) NRCS will only consider funding the acquisition of eligible land in the Program if the agricultural viability of the land can be demonstrated. For example, the land must be of sufficient size and have boundaries that allow for efficient management of the area. The land must also have access to markets for its products and a support infrastructure appropriate for agricultural production.

(b) NRCS may not fund the acquisition of eligible lands if NRCS determines that the protection provided by the FRPP would not be effective because of on-site or off-site conditions.

(c) NRCS will place a higher priority on easements acquired by entities that

Commodity Credit Corporation, USDA

§ 1491.21

have extensive experience in managing and enforcing easements.

(d) During the application period, pending offers having appraisals completed and signed by State-certified general appraisers within the preceding one year shall receive higher funding priority by the NRCS State Conservationist. Before funding is released for easement acquisition, the cooperating entity must provide NRCS with a copy of the certified appraisal.

(e) NRCS may place a higher priority on lands and locations that help create a large tract of protected area for viable agricultural production and that are under increasing urban development pressure(s).

(f) NRCS may place a higher priority on lands and locations that link to other Federal, Tribal, or State governments or non-governmental organization efforts with complementary farmland protection objectives (e.g. open space, watershed and wildlife habitat protection).

(g) NRCS may place a higher priority on lands that provide multifunctional benefits including social, economic, historical and archaeological, and environmental benefits.

(h) NRCS may place a higher priority on certain geographic regions where the enrollment of particular lands may help achieve National, State, and regional goals and objectives, or enhance existing government or private conservation projects.

(i) NRCS may place a higher priority on farms or ranches that have or will have a greater variety of natural resources protected.

(j) NRCS may place a higher priority on farms or ranches that have a farm succession plan or similar plan established to encourage farm viability for future generations.

(k) NRCS may place a higher priority on the national ranking criteria listed in § 1491.6(a)(1) than State criteria, if the NRCS Chief deems appropriate.

Subpart B—Cooperative Agreements and Conservation Easement Deeds

§ 1491.20 Cooperative agreements.

(a) NRCS, on behalf of CCC, enters into a cooperative agreement with

those entities selected for funding awards. Once a proposal is selected by the State Conservationist, the entity must work with the appropriate State Conservationist to finalize and sign the cooperative agreement incorporating all necessary FRPP requirements. The cooperative agreement addresses:

(1) The interests in land to be acquired, including the form of the easements to be used and terms and conditions;

(2) The management and enforcement of the rights acquired;

(3) The role of NRCS;

(4) The responsibilities of the easement manager on lands acquired with the assistance of FRPP; and

(5) Other requirements deemed necessary by NRCS to protect the interests of the United States.

(b) The cooperative agreement will also include an attachment listing the parcels accepted by the State Conservationist, landowners' names, addresses, location map(s), and other relevant information. An example of a cooperative agreement may be obtained from the State Conservationist.

§ 1491.21 Funding.

(a) The State Conservationist, in coordination with the cooperating entity, shall determine the NRCS share of the cost of purchasing a conservation easement.

(b) Under the FRPP, NRCS may provide up to 50 percent of the appraised fair market value of the conservation easement. Entities are required to supplement the NRCS share of the cost of the conservation easement.

(c) Landowner donations up to 25 percent of the appraised fair market value of the conservation easement may be considered part of the entity's matching offer.

(d) For the entity, two cost-share options are available when providing its matching offer.

(1) The entity may provide in cash at least 25 percent of the appraised fair market value of the conservation easement, or

(2) The entity may provide at least 50 percent of the purchase price in cash, of the conservation easement. This second option may be preferable to an entity in the case of a large bargain sale

§ 1491.22

7 CFR Ch. XIV (1–1–05 Edition)

by the landowner. If this option is selected, the NRCS share cannot exceed the entity's contribution.

(e) FRPP funds may not be used for expenditures such as appraisals, surveys, title insurance, legal fees, costs of easement monitoring, and other related administrative and transaction costs incurred by the entity.

(f) If the State Conservationist determines that the purchase of two or more conservation easements are comparable in achieving FRPP goals, the State Conservationist shall not assign a higher priority to any one of these conservation easements based on lesser cost to FRPP.

§ 1491.22 Conservation easement deeds.

(a) Under FRPP, a landowner grants an easement to an eligible entity with which NRCS has entered into an FRPP cooperative agreement. The easement shall require that the easement area be maintained in accordance with FRPP goals and objectives for the term of the easement.

(b) Pending offers by an eligible entity must be for acquiring an easement in perpetuity, except where State law prohibits a permanent easement.

(c) The conveyance document or conservation easement deed used by the eligible entity may be reviewed and approved by the NRCS National Office and Office of the General Counsel (OGC) before being recorded.

(d) Since title to the easement is held by an entity other than the United States, the conveyance document must contain a "contingent right" clause that provides that all rights conveyed by the landowner under the document will become vested in the United States should the eligible entity (*i.e.*, the grantee[s]) abandon or attempt to terminate the conservation easement. In addition, the contingent right also provides, in part, that the Secretary takes title to the easement, if the eligible entity fails to uphold the easement or attempts to transfer the easement without first securing the consent of the Secretary.

(e) As a condition for participation, a conservation plan will be developed by NRCS in consultation with the landowner and implemented according to

the NRCS Field Office Technical Guide and approved by the local conservation district. The conservation plan will be developed and managed in accordance with the Food Security Act of 1985, as amended, 7 CFR part 12 or subsequent regulations, and other requirements as determined by the State Conservationist. To ensure compliance with this conservation plan, the easement will grant to the United States, through NRCS, its successors or assigns, a right of access to the easement area.

(f) The cooperating entity shall acquire, hold, manage and enforce the easement. The cooperating entity may have the option to enter into an agreement with governmental or private organizations to carry out easement stewardship responsibilities if approved by NRCS.

(g) Prior to fund disbursement, NRCS must sign the conservation easement, concurring with the terms of the conservation easement and accepting its interest in the conservation easement deed.

(h) All conservation easement deeds acquired with FRPP funds must be recorded. Proof of recordation shall be provided to NRCS by the cooperating entity.

§ 1491.23 Easement modifications.

(a) After an easement has been recorded, no amendments to the easement will be made without prior approval by NRCS State Conservationist and the USDA Office of General Counsel.

(b) Easement modifications will be approved only when easement is duly prepared and recorded in conformity with standard real estate practices, including requirements for title approval, subordination of liens, and recordation, and when the amendment is consistent with the purposes of the conservation easement.

Subpart C—General Administration

§ 1491.30 Violations and remedies.

(a) In the event of a violation of the terms of the easement, the cooperating entity shall notify the landowner. The

landowner may be given reasonable notice and, where appropriate, an opportunity to voluntarily correct the violation in accordance with the terms of the conservation easement.

(b) In the event that the cooperating entity fails to enforce any of the terms of the easement as determined in the sole discretion of the Secretary, the Secretary and his or her successors and assigns shall have the right to enforce the terms of the easement through any and all authorities available under Federal or State law. In the event that the cooperating entity attempts to terminate, transfer, or otherwise divest itself of any rights, title, or interests of the easement or extinguish the easement or without the prior consent of the Secretary and payment of consideration to the United States, then, at the option of the Secretary, all right, title, and interest in the conservation easement shall become vested in the United States of America.

(c) Notwithstanding paragraph (a) of this section, NRCS, upon notification to the landowner, reserves the right to enter upon the easement area at any time to monitor conservation plan implementation or remedy deficiencies or easement violations, as it relates to the conservation plan. The entry may be made at the discretion of NRCS when the actions are deemed necessary to protect highly erodible soils and wetland resources. The landowner will be liable for any costs incurred by the United States as a result of the landowner's negligence or failure to comply with the easement requirements as it relates to conservation plan violations.

(d) The United States shall be entitled to recover any and all administrative and legal costs, including attorney's fees or expenses, associated with any enforcement or remedial action as it relates to the enforcement of the FRPP easement.

(e) The conservation easement shall include an indemnification clause requiring landowners to indemnify, defend, and hold harmless the United States from any liability resulting from the negligent acts of the landowner.

(f) In instances where an easement is terminated or extinguished, NRCS will collect CCC's share of the conservation

easement based on the appraised fair market value of the conservation easement at the time the easement is extinguished or terminated. CCC's share shall be in proportion to its percentage of original investment.

§ 1491.31 Appeals.

(a) A person or cooperating entity which has submitted an FRPP proposal and is therefore participating in FRPP may obtain a review of any administrative determination concerning eligibility for participation utilizing the administrative appeal regulations provided in 7 CFR part 614.

(b) Before a person may seek judicial review of any action taken under this part, the person must exhaust all administrative appeal procedures set forth in paragraph (a) of this section, and for the purposes of judicial review, no decision shall be a final agency action except a decision of the U. S. Department of Agriculture under these provisions.

§ 1491.32 Scheme or device.

(a) If it is determined by the Secretary that a cooperating entity has employed a scheme or device to defeat the purposes of this part, any part of any program payment otherwise due or paid such a cooperating entity during the applicable period may be withheld or be required to be refunded with interest thereon, as determined appropriate by CCC.

(b) A scheme or device includes, but is not limited to, coercion, fraud, misrepresentation, depriving any other person or entity of payments for easements for the purpose of obtaining a payment to which a person would otherwise not be entitled.

PART 1492 [RESERVED]

PART 1493—CCC EXPORT CREDIT GUARANTEE PROGRAMS

Subpart A—Restrictions and Criteria for Export Credit Guarantee Programs

Sec.

1493.1 General statement.

1493.2 Purposes of programs.

1493.3 Restrictions on programs and cargo preference statement.
